Relapse Prevention: Not Just Another Catch Phrase

Presenters

Wilf Bowering, ICADC, and
Ellen Topping, BA, ICADC

A relapse prevention program involves recognizing the signs and symptoms unique to each individual, which could potentially lead to a relapse. This is an integral part of the recovery process.

Come learn more about relapse prevention, and join us as we review one of the latest publications about relapse prevention and the importance of a relapse prevention program in the treatment of addictions.

DATE: Tuesday, December 1, 2009
LOCATION: Homewood Lecture Theatre
TIME: Lunch - 11:30 a.m.
Presentation - noon to 1 p.m.

REGISTER: Cathy Barber,
519-824-1010, extension 2366
RSVP by Friday, November 27
Lunch provided by Homewood.

This event is an accredited group learning activity as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons Canada. Twenty-five percent of the time for these rounds will be devoted to interactive learning.

Educational Objectives:

1. Participants will learn about the signs and symptoms of relapse.
2. Participants will review up-to-date documentation about relapse prevention.
3. Participants will gain an understanding of the importance of a relapse prevention program in the treatment of addictions.
